## A BIG CROCKERY SHOW

The Latest Scheme to Boom  
American Ware.

LET THEM KNOW WE MAKE IT

The Bicycle Show is an Immense Success. Why Not Crockery?—Every Pottery Could Enter and It Would Be Pretty. Some One May Make the Move.

There is at least one man in East Liverpool who wants to see the city and our great industry move forward. He is well known in the office of every pottery in town, and his words will be heard with no little interest.

"The American potters can never hope to get along without placing their product before the consumers of the country and keeping it where it can be seen," he said to a representative of this paper. "There are millions of people who don't know there is a pottery in East Liverpool, and there are other millions who think your town makes nothing but stone-ware crocks. Now you would imagine that the learned journals of our neighboring towns knew something of us, but they don't. Why only last week one of the Canton papers spoke of a prominent manufacturer of this city as 'the great glazed earthenware manufacturer.' That is an awful thing, and unworthy the gentleman in question, for he has spent many years of his life in producing some of the finest ware seen in America. I could tell you other instances of the ignorance of Americans about our product, but you would weary of them; but I can't restrain this one. A few months ago I entered a china store in a well developed town in the center of the state. The proprietor was a well dressed, gentlemanly looking fellow, and he greeted me with that courtesy which betokens contact with cultured people as I entered the place. I stated my business and he bought some ware. When my samples were packed up and we were talking about trade and the many other little things incidental to a traveler's life, he remarked: 'You must be getting along pretty well in Liverpool now. I hear they have built another kiln for the pottery there.' I almost dropped dead, and asked him to say it again. He did, and I explained. I told him that instead of one pottery we had 30, and that new kilns were built without number every year. He sat in open mouthed wonder as I detailed the glories of Liverpool, but I think I'll be forgiven for the way in which I stretched some of them, but I couldn't help it, seeing that there was a man who wanted knowledge.

"Thus you see that the people don't know what we have here. They think we are behind the times a few hundred years and have only started to make ware. That is why it would be a good plan for the American manufacturers to have a big exhibition in New York. Let them rent Madison Square Garden for a week and fix it up like a great big crockery store. What a sensation it would make. Why, all the people in New York who like china would be there. The bicycle show wouldn't be a consideration beside it, and that was a big success. A small admission fee could be charged, and the ladies would go by the hundred. A souvenir given by every concern represented could be some little thing, both pretty and useful, and the women would be the friends of American potters forever. If every pottery in the country would spend a few hundred dollars on the show, or if only 50 would enter, it would be at once one of the most novel and entertaining affairs ever given in Madison square. It could not but be successful, and New York would take to it like a duck takes to water. The newspapers would talk about it, and the potteries would be heard of in every intelligent home in the city. It would be the biggest advertisement the potters could possibly get, for hundreds of thousands of people would know about it. They could learn more of American ware and American potters by that means than they could ever otherwise hope to hear of.

"Another thing would be the novelty. A whole pottery in miniature could be represented at small cost. The pressers and liggers could be put to work at small cost, and a turner could show the people a few things of interest. Decorators could decorate, and the public could understand why this place can turn out such splendid ware. I have heard the thing discussed in a small way, and it may be that the exhibition will come in the future. I hope it will, for it would be the best thing to advertise American crockery imaginable. It would cost some money, there is no denying that, but with the fight now going on be-

tween the importers and the domestic manufacturers it could not but be accompanied by inestimable benefit."

### ANTI-SALOON MEETING.

The Public are Invited to the First M. E. Church.

MR. EDITOR—Will you please announce a mass temperance meeting at the First M. E. church on Friday evening, Jan. 31. This meeting will be under the auspices of the Anti-Saloon league and in the interest of the local option bill now before the general assembly of the state. Rev. L. H. Stewart, D. D., of Steubenville, one of the speakers at the state convention last week, will make an address. All friends of temperance are cordially invited to this meeting. Come and hear of the efforts of the Anti-Saloon league that are filling the advocates of the liquor traffic with fear and are giving the friends of temperance increasing hope that an opportunity will soon be given to banish the saloon from much of our state. A memorial and petition to the general assembly of the state asking the enactment of a local option law will be presented to the meeting for its adoption. Do you want to give your voice for such a law come and vote for the petition, and help increase the sound of the slogan that is ringing throughout all the state. The saloons must go.

J. C. TAGGART,  
President of Anti-Saloon league.

### NO RAILROAD.

The Learned Opinion Comes From  
Wellsville.

The Wellsville Union, with a flourish of wisdom that is remarkable, pretends to know the future of the Canton and East Liverpool, and reasons that the line will not be built within the next few years. There might be some small ground for believing the story were it not for the statement that if ever another road is built through this section it will be by the Pennsylvania company. That is the result of the influence of the great corporation, Wellsville being filled with officials of the company. The Union can put it down in its little red book that there is no truth in its own silly story.

### AT IT AGAIN.

Coxey Wants to be a Candidate for Congress.

Jacob S. Coxey, the commonwealer, wants to be the candidate of his party for congress again, and it is learned here that efforts have been made to find his standing in this county. As the story goes the commonwealer refuses to recognize his vote of last year as an indication of his strength, but takes the vote he polled when he ran for congress against Hon. R. W. Taylor. He thinks he came near getting the place at that time, and that he can, like a flowing stream, gather more strength. If Coxey is a candidate he will not poll one-half his original vote in this county.

### THE LINCOLN BANQUET.

There Will Be Toasts and Good Things in  
Abundance.

The committee having in charge the Lincoln banquet for the McKinley club held a meeting last night, and transacted business. Menus, toasts and other arrangements were discussed, and plans were laid for the event. The committee will report to the club on Thursday evening, and the announcements will then be made. They want to see several hundred of their organization sit down to the table on that evening, and propose to make the banquet the first of an institution which will grow to be one of importance in the city.

### TO KEEP THEIR SEATS.

Doctor Marshall and William Kent are  
Candidates.

Dr. R. J. Marshall, president of council, announces today that he is a candidate for council again and will make the race in the First ward. The name of William Kent for councilman from the Second ward is also presented, and he will run. Both candidates have been in council for almost two years, and their friends know they will make a strong canvass for re-election. No other candidates from these wards have been announced.

### SETTLED IN A HURRY.

The Loss on the Burned Stable Has Been  
Adjusted.

The record for adjusting a fire loss was made in the city yesterday. George H. Owen, wired the adjuster of the company at Detroit as soon after the fire as it was possible, and he came here at once. He looked over the ground yesterday, investigated the age, weight and value of the horses, and soon made his report. The loss will be total to the company, and they will pay the full amount of \$1,300 insurance.

## PUNCHED EACH OTHER

Two Young Men Settled a  
Difference.

THE POLICE WERE CALLED

There Was a Sudden Termination to the  
Battle, and the Crowd Fled—An Incident—The Battle Was Fought on Walnut  
Street Last Night.

Two young men disagreed on Sixth street last night and came near coming to blows, but friends interfered, and the pair agreed to settle their difference in some other place.

A few friends who seemed to be interested in the movement thought that Walnut street in the neighborhood of the Boyce foundry was the right place, and to that place the crowd went. The principals were accompanied by a number of adherents, and upon reaching the battle ground set to work. They squared off like knights of the ring, and lost no time in going at each other like a pair of bull dogs. A few blows were exchanged, but the damage done was not great. Meantime someone notified the police, and Officer Meador went to the place, but he was too late; the crowd had taken the alarm. They were notified almost as soon as the police were summoned, and fled in haste. They did not leave, however, before the principals had each given the other a parting blow. The crowd had a lot of fun from the fight, and the two young men looked foolish.

### A FAMILY QUARREL.

Placed a Husband Behind the Bars Last  
Night.

Jack O'Neill was the name given by a man who was arrested by Officer Jennings on Second street last night. O'Neill has been living with his wife at the Exchange hotel and working in a pottery. The pair disagreed and there was a row. The woman seemed to be getting the worst of the fight, and running to the door implored someone to go for the police, and urged that she be taken from the place. She wrung her hands and cried in terror. The landlord went in and endeavored to quiet the pair, but was driven away with blows, and he called Officer Jennings. O'Neill was locked up for the night, and given time for reflection. This morning he was fined \$9.00, but not having the amount in his inside pocket, he was sent back to jail while efforts were being made to raise it. He was released this afternoon.

### DEFRAUDED A WOMAN.

It Was an Old Game But Worked Very  
Well.

A well dressed man yesterday walked into the restaurant of Mrs. Voegtli on Walnut street and ate to the amount of 20 cents. He put a dollar on the counter, and Mrs. Voegtli gave him 80 cents in change. Then she reached for the dollar, but it was gone. The fellow declared that he had placed it on the counter, but the woman did not get it and is firm in the belief that he returned it to his pocket. At length the fellow left the store, taking with him the dollar, 80 cents and what food he had taken.

### EDNA SCOTT DEAD.

The Remains Will be Taken to Canada for  
Burial.

Edna, the daughter of Mr. and Mrs. Edward Scott, died at her home on Second street this morning at 10 o'clock after a long illness, consumption being the cause. Deceased was ill for many months, but bore her suffering with patient fortitude. Every effort possible was made to save Miss Scott, but the disease worked steadily and finally conquered. Funeral services will be held at late residence at 8 o'clock tonight. The remains will be taken tomorrow morning to Picton, Canada, for interment.

### LEVIED ON THE BOX.

An Old Judgment Collected on the  
Street.

Constable Lyon yesterday levied on the cash box of Emmitt Wilson. Some time ago Robert Weaver, of Kensington, got judgment against Wilson & Gaston and levied on a horse and wagon. It was shown at that time that Miss Lizzie Wilson owned the property and Weaver could not collect. Now he had the cash box seized, and the same claim is set up again. It will be settled as soon as possible.

### REVERSED ONE DECISION.

Circuit Court Closed Its Business This  
Afternoon.

Special to the News Review.  
Lisbon, Jan. 28.—Circuit court finished up its business this afternoon and sustained Judge Billingsley in every instance except one.

J. D. West won out against the city

and the street railway was made a partner which divides the damages to be paid. The city lost in the case against Sarah Hamill, who was fined by Mayor Gilbert, for breaking the liquor law. In the case of E. A. Albright against George Meredith the latter won, being allowed the cash register on which Albright as constable once levied.

The decision of common pleas in the case of the Wellsville Light company against R. T. McDonald was sustained as was the ruling of Judge Billingsley in the case of W. S. Risher against William Meehan, Henry Cooper and J. N. Turner. The court is still in session.

### ONLY ONE CASE.

Lisbon Has No New Evidence of Small-  
pox.

A story was current in the city today that there were six cases of smallpox in Lisbon, and the News Review telephoned Doctor Marquis, one of the leading physicians of the county seat, who said:

"We have only one case here, Sadie Lewis. The family have been moved to the pest house outside of town, and it cannot be said that we have one here. The man who was sick is well, although still under close quarantine. No other members of the Lewis family are ill, and we do not fear they will contract smallpox."

### CHALLENGED THEM ALL.

The Rovers Want a Few Games Before  
Spring.

The Rovers football club decided at the meeting last night to challenge all the crack teams in this vicinity. They are after the P. A. C. and McDonald teams in particular, but will play with any of them. The Weaverville club, a Cleveland organization, is making a trip through this part of Ohio, and will be here for a game early next month. They have a very good reputation, and have won many games. The Rovers are in good form, and anxious to face some of the good teams.

### MORE EVIDENCE.

Baltimore and Ohio Officials Were in  
Town.

A well known resident of the city who knows what he is talking about is responsible for the statement that some Baltimore and Ohio officials have been in town recently, looking after matters connected with the Canton and East Liverpool. W. O. Wilson, of Cheat Haven, the attorney who looks after the right of way of the Baltimore and Ohio, was here accompanied by a superintendent and they spent several hours in the city. They did not disclose their business.

### CAN HOLD THE OFFICE.

A Constable Can be Elected This  
Year.

When candidates began to announce themselves for constable yesterday the story became current that if elected they could not hold the office since Dick Albright was already in the place even though he was not here. There seems to be a difference of opinion, but Tony Bertele, who is one of the candidates, consulted an attorney, and found he could hold the office if he was elected. The fact that Captain Albright has abandoned the office here seems to settle the matter.

### MAY SHOOT NO MORE.

I. N. Crable Cannot Stand the Diver-  
sion.

I. N. Crable, the crack shot, may never participate in another shoot. Sometime ago he was afflicted with an attack of fever, that left his left side in weak condition, which is continually aggravated by the recoil of the gun. Yesterday Mr. Crable underwent an examination by a physician and was told that if he wished to recover, he must desist from all violent exercise, particularly the pleasant pastime of shooting.

### One New Case.

There was one case of typhoid fever reported to the health authorities today. The victim is Carl, son of Thomas Blackmore, of East Market street. He is very ill but no serious results are feared.

### Has the Grip.

Squire Rose is absent from his office today and no business is being done in his court. He suffers from such a severe attack of the grip that he cannot leave his home. Squire Morley was afflicted with the same disease last week.

### Council Tonight.

Council meets in regular session tonight and will have abundant business on hand to occupy a few hours. Several important measures are to be acted upon, and there will likely be a lively discussion or two.

## MORE VERY BAD MONEY

It is Floating About the City in  
Abundance.

DIMES, QUARTERS AND HALVES

They Have Been Passed on Unsuspecting  
People—No Clue to the People Who  
Make the Stuff—Several Instances of How  
It Is Done.

If the secret service officers should drop into town they would find a considerable amount of counterfeit coin floating about the city.

Scarcely a day passes without a story of someone being victimized comes to the surface, but there are no instances of where they were taken in more than once. Late on Saturday night Frank Dickey was given a villainous looking 10 cent piece in change, but does not remember who passed it on him. James Hunter, an employe of the Knowles plant, exhibits a poor half dollar, which some one exchanged with him for good money, and several other potters have been victimized in the same manner. A lad was accosted on the street the other evening and asked to change a quarter. He happened to have the change, and obliged the man. Later he discovered he had been given a bogus quarter. At a tobacco store recently a bogus half was presented in exchange for a nickel's worth of tobacco and the change, but the clerk was too sharp for him, and demanded good money. The man hastily explained the coin was a pocket piece, and produced some good money. The money is in no instance a good counterfeit, and would only be taken in a hurry by people who have not time to examine what they are getting. There is a great deal of the stuff in town, and instances of it being passed are constantly being heard.

### GOING SOUTH.

Several Million Bushels of Coal Passed  
the City.

The coal fleet began to pass the city last night, and the continuous whistling told those who had not kept pace with the times that several million bushels were southward bound. To a late hour this afternoon there was no word of accident, and rivermen here expressed the belief there would be none of importance. The fleet carried over 3,000,000 bushels this time, and the high water allowed many empty barges to be sent upstream.

### A Candidate For Council.

As stated some days ago in this paper, Mr. Lawrence Thomas, of the Fourth ward, had given his conditional consent to be a candidate for council from the Fourth ward, and elsewhere in our columns will be found his formal announcement. It is understood that over one hundred Republicans of the Fourth ward signed a request for Mr. Thomas to consent to run, pledging him their vote and influence. This certainly attests the popularity and high esteem in which Mr. Thomas is held by the Fourth ward people.

### Thought he Had Smallpox.

A man named Bowers, who works at a river pottery, imagined yesterday that he had the smallpox, and at once sought a physician in great alarm. Some of the workmen employed in the same shop were also alarmed and urged him to lose no time in finding the physician. He found, however, that he was only suffering from a slight eruption, and was greatly relieved.

### A Novel Entertainment.

The Christian Endeavor of the First Presbyterian church will conduct a novel entertainment on Thursday evening. It will be an art exhibition, but the pictures will be the most ancient specimens of photography that can be found in town. The managers of the affair will endeavor to secure early representations of people who are well known to those who will be present.

### An Organ With a Story.

In the office of Squire Rose there is an organ. It is a nice instrument, and one would not suppose that it has a history, but it has. Constable Lyon says there is a story of mistake connected with it, but he does not tell it. He is keeping the story to himself, and no one except the principals in the suit knows anything about it.

### Trades Council Tomorrow.

Trades council meets tomorrow evening for the purpose of filling out the remainder of the ticket, and leading members of that body believe they will have a complete list. The sentiment that the council is making a mistake by putting a ticket in the field is still felt by some of the members.

O'Neill was locked up for the night, and given time for reflection. This morning he was fined \$9.00, but not having the amount in his inside pocket, he was sent back to jail while efforts were being made to raise it. He was released this afternoon.

## DEFRAUDED A WOMAN.

It Was an Old Game But Worked Very Well.

A well dressed man yesterday walked into the restaurant of Mrs. Voegtle on Walnut street and ate to the amount of 20 cents. He put a dollar on the counter, and Mrs. Voegtle gave him 80 cents in change. Then she reached for the dollar, but it was gone. The fellow declared that he had placed it on the counter, but the woman did not get it and is firm in the belief that he returned it to his pocket. At length the fellow left the store, taking with him the dollar, 80 cents and what food he had taken.

## EDNA SCOTT DEAD.

The Remains Will be Taken to Canada for Burial.

Edna, the daughter of Mr. and Mrs. Edward Scott, died at her home on Second street this morning at 10 o'clock after a long illness, consumption being the cause. Deceased was ill for many months, but bore her suffering with patient fortitude. Every effort possible was made to save Miss Scott, but the disease worked steadily and finally conquered. Funeral services will be held at late residence at 8 o'clock tonight. The remains will be taken tomorrow morning to Picton, Canada, for interment.

## LEVIED ON THE BOX.

An Old Judgment Collected on the Street.

Constable Lyon yesterday levied on the cash box of Emmitt Wilson. Some time ago Robert Weaver, of Kensington, got judgment against Wilson & Gaston and levied on a horse and wagon. It was shown at that time that Miss Lizzie Wilson owned the property and Weaver could not collect. Now he had the cash box seized, and the same claim is set up again. It will be settled as soon as possible.

## REVERSED ONE DECISION.

Circuit Court Closed Its Business This Afternoon.

Special to the NEWS REVIEW.  
LISBON, Jan. 28.—Circuit court finished up its business this afternoon and sustained Judge Billingsley in every instance except one.

J. D. West won out against the city

and the street railway was made a partner which divides the damages to be paid. The city lost in the case against Sarah Hamill, who was fined by Mayor Gilbert, for breaking the liquor law. In the case of E. A. Albright against George Meredith the latter won, being allowed the cash register on which Albright is constable once levied.

The decision of common pleas in the case of the Wellsville Light company against R. T. McDonald was sustained as was the ruling of Judge Billingsley in the case of W. S. Risher against William Meehan, Henry Cooper and J. N. Turner. The court is still in session.

## ONLY ONE CASE.

Lisbon Has No New Evidence of Smallpox.

A story was current in the city today that there were six cases of smallpox in Lisbon, and the NEWS REVIEW telephoned Doctor Marquis, one of the leading physicians of the county seat, who said:

"We have only one case here, Sadie Lewis. The family have been moved to the post house outside of town, and it cannot be said that we have one here. The man who was sick is well, although still under close quarantine. No other members of the Lewis family are ill, and we do not fear they will contract smallpox."

## CHALLENGED THEM ALL.

The Rovers Want a Few Games Before Spring.

The Rovers football club decided at the meeting last night to challenge all the crack teams in this vicinity. They are after the P. A. C. and McDonald teams in particular, but will play with any of them. The Weaverville club, a Cleveland organization, is making a trip through this part of Ohio, and will be here for a game early next month. They have a very good reputation, and have won many games. The Rovers are in good form, and anxious to face some of the good teams.

## MORE EVIDENCE.

Baltimore and Ohio Officials Were in Town.

A well known resident of the city who knows what he is talking about is responsible for the statement that some Baltimore and Ohio officials have been in town recently, looking after matters connected with the Canton and East Liverpool. W. O. Wilson, of Cheat Haven, the attorney who looks after the right of way of the Baltimore and Ohio, was here accompanied by a superintendent and they spent several hours in the city. They did not disclose their business.

## CAN HOLD THE OFFICE.

A Constable Can be Elected This Year.

When candidates began to announce themselves for constable yesterday the story became current that if elected they could not hold the office since Dick Albright was already in the place even though he was not here. There seems to be a difference of opinion, but Tony Bertele, who is one of the candidates, consulted an attorney, and found he could hold the office if he was elected. The fact that Captain Albright has abandoned the office here seems to settle the matter.

## MAY SHOOT NO MORE.

I. N. Crable Cannot Stand the Diversion.

I. N. Crable, the crack shot, may never participate in another shoot. Sometime ago he was afflicted with an attack of fever, that left his left side in weak condition, which is continually aggravated by the recoil of the gun. Yesterday Mr. Crable underwent an examination by a physician and was told that if he wished to recover, he must desist from all violent exercise, particularly the pleasant pastime of shooting.

## One New Case.

There was one case of typhoid fever reported to the health authorities today. The victim is Carl, son of Thomas Blackmore, of East Market street. He is very ill but no serious results are feared.

## Has the Grip.

Squire Rose is absent from his office today and no business is being done in his court. He suffers from such a severe attack of the grip that he cannot leave his home. Squire Morley was afflicted with the same disease last week.

## Council Tonight.

Council meets in regular session tonight and will have abundant business on hand to occupy a few hours. Several important measures are to be acted upon, and there will likely be a lively discussion or two.

## MORE VERY BAD MONEY

It is Floating About the City in Abundance.

DIMES, QUARTERS AND HALVES

They Have Been Passed on Unsuspecting People—No Clue to the People Who Make the Stuff—Several Instances of How It Is Done.

If the secret service officers should drop into town they would find a considerable amount of counterfeit coin floating about the city.

Scarcely a day passes without a story of someone being victimized comes to the surface, but there are no instances of where they were taken in more than once. Late on Saturday night Frank Dickey was given a villainous looking 10 cent piece in change, but does not remember who passed it on him. James Hunter, an employee of the Knowles plant, exhibits a poor half dollar, which some one exchanged with him for good money, and several other potters have been victimized in the same manner. A lad was accosted on the street the other evening and asked to change a quarter. He happened to have the change, and obliged the man. Later he discovered he had been given a bogus quarter. At a tobacco store recently a bogus half was presented in exchange for a nickel's worth of tobacco and the change, but the clerk was too sharp for him, and demanded good money. The man hastily explained the coin was a pocket piece, and produced some good money. The money is in no instance a good counterfeit, and would only be taken in a hurry by people who have not time to examine what they are getting. There is a great deal of the stuff in town, and instances of it being passed are constantly being heard.

## GOING SOUTH.

Several Million Bushels of Coal Passed the City.

The coal fleet began to pass the city last night, and the continuous whistling told those who had not kept pace with the times that several million bushels were southward bound. To a late hour this afternoon there was no word of accident, and rivermen here expressed the belief there would be none of importance. The fleet carried over 3,000,000 bushels this time, and the high water allowed many empty barges to be sent up stream.

## A Candidate For Council.

As stated some days ago in this paper, Mr. Lawrence Thomas, of the Fourth ward, had given his conditional consent to be a candidate for council from the Fourth ward, and elsewhere in our columns will be found his formal announcement. It is understood that over one hundred Republicans of the Fourth ward signed a request for Mr. Thomas to consent to run, pledging him their vote and influence. This certainly attests the popularity and high esteem in which Mr. Thomas is held by the Fourth ward people.

## Thought he Had Smallpox.

A man named Bowers, who works at a river pottery, imagined yesterday that he had the smallpox, and at once sought a physician in great alarm. Some of the workmen employed in the same shop were also alarmed and urged him to lose no time in finding the physician. He found, however, that he was only suffering from a slight eruption, and was greatly relieved.

## A Novel Entertainment.

The Christian Endeavor of the First Presbyterian church will conduct a novel entertainment on Thursday evening. It will be an art exhibition, but the pictures will be the most ancient specimens of photography that can be found in town. The managers of the affair will endeavor to secure early representations of people who are well known to those who will be present.

## An Organ With a Story.

In the office of Squire Rose there is an organ. It is a nice instrument, and one would not suppose that it has a history, but it has. Constable Lyon says there is a story of mistake connected with it, but he does not tell it. He is keeping the story to himself, and no one except the principals in the suit knows anything about it.

## Trades Council Tomorrow.

Trades council meets tomorrow evening for the purpose of filling out the remainder of the ticket, and leading members of that body believe they will have a complete list. The sentiment that the council is making a mistake by putting a ticket in the field is still felt by some of the members.

EAST LIVERPOOL, O., TUESDAY, JAN. 28.

For President, WILLIAM MCKINLEY, Of Ohio.

The legislature is making a record for doing business, and the good work should be urged on.

PERHAPS the best reason for the Harrison-Dimick wedding is that son Russell needs some guiding influence.

OLD stockings and the bottoms of chairs are giving up their gold for bonds, and Secretary Carlisle is seen to smile again.

THE only weapons used in the American-English conflict to date are tongues, teeth and pellets of the various combatants.

AN exhibit of American crockery in New York would be a paying advertisement. Worse ideas for the advancement of our product have frequently been proposed.

THE Congressional Record is not interesting reading these days. It is about as cheerful as the inside of a coffin with the lid screwed down and six feet of earth piled on top.

EVERY member of the McKinley club and every other man who is so fortunate as to be invited should remember that the Lincoln banquet will be an event political in this town.

THE next presidential candidate of the Democratic party will be as a sheep led to the slaughter, and there are several million good Americans in the vicinity waiting patiently with knives.

### SUPPRESS THE TRAMP.

Next to miserable roads, the crowning nuisance of Ohio, stands the tramp. He is a selfish, indolent fellow, often vicious and given to crime. He is lazy and dirty, wicked and depraved. Wandering from place to place, the model for vagabonds of every nation, he is of no more service to the state than he is to himself. His wants are few, but he compels other people to provide for them, and there is no excuse whatever for his existence. Sleeping where he can find shelter and eating of food, oftentimes unwholesome, he is a mark for contagion, and the manner in which he wanders through the state admits of disease being carried from place to place. Work to him is an abomination, and when it is possible to avoid labor he is found in the role of the idler. For years he has been a nuisance. While other matters far less important have been touched upon by the legislature, the tramp has been allowed to wander at will, amazing the public and maintaining himself as an institution decidedly dangerous. If the law compelled him to work he would soon cease to exist. Hundreds of him would wander to other states where no such hardship is encountered. He would vanish from Ohio, and the state would know him no more. Pass a tramp law.

There is good reason for the popularity of Chamberlain's Cough Remedy. Davis & Buzard, of West Monterey, Clarion company, Pa., says: "It has cured people that our physicians could do nothing for. We persuaded them to try a bottle of Chamberlain's Cough Remedy and they now recommend it with the rest of us." Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

## OUR SHIPS TO MENANCE

Turkey Would Be Pleasing to the British.

### WOULD BRING SULTAN TO TIME.

The London Chronicle suggests that the European Powers invite the United States to make a Naval Demonstration. Turkey May Be Divided Up.

LONDON, Jan. 28.—The Chronicle this morning has an editorial recalling the success which attended President Jefferson's sending a fleet to Algiers and advocates the great powers formally inviting the United States to send a fleet to Turkey.

"The mere sight of such a formidable display," says The Chronicle, "would suffice to bring the Sultan to his senses." If, however, action were needed, The Chronicle urges that the British fleet should co-operate.

The Daily News prints a dispatch from Vienna which asserts that news has been received from Constantinople and Sebastopol which agrees that Russia has a fleet lying at Sebastopol and at Odessa, and that the Caucasian armies of Russia are being concentrated upon the Armenian frontiers in readiness to move next spring to realize the plans of Peter the Great for the partition of Turkey between the powers, Russia taking Armenia and Constantinople, France taking Syria and Palestine, and England taking Egypt and the eastern shores of the Persian gulf, the remainder of the Turkish empire to be divided among the other powers.

The Daily News also has a dispatch from Sebastopol, which records the secret preparations are going forward there of shipping and of armaments for a volunteer fleet. It is the general belief there, this dispatch affirms, that these preparations foreshadow some action in spring.

A Berlin special says the Berliner Tageblatt declares: "It will be the duty of continental diplomacy to convince America that England's motives in the American question are political and not humane, and thus dissuade the United States from co-operating with England."

### AIDING THE ARMENIANS.

Relief Being Distributed at Various Points—American Schools Opened.

BOSTON, Jan. 28.—The following letter from Constantinople surveys the general condition of affairs in the disturbed districts of Turkey. The writer says the general situation is not changed, though at some places it has improved, but confidence is weak. The college (male) of the American board at Harport has commenced its classes. At Sivaz the missionary schools have been reopened.

Relief work goes on apace. In Wan about 9,000 people are being helped with funds sent Dr. Grace Kimball of Bangor, Me., who has rented two public ovens for feeding refugees. Consul Harport at Moush reports, the Sassan villagers still safe, and is furnishing them with grain. In Trebizond about 5,000 people are being helped.

At Harport relief work has been authorized after pressure from English and American legations, and the first thousand has already been distributed. At Constantinople missionary rooms are transformed into clothing warehouses. Clothing and bedding go mainly to near points, Trebizond and Cesarea.

### THE MISSIONARIES ACCUSED.

Turkey Refuses to Allow Rev. Barnum to Distribute Relief.

BOSTON, Jan. 28.—The American board received the following cablegram from Constantinople by way of Philadelphia: "Turkey refuses Barnum leave to go to Erzerum to engage in relief work for Armenians, saying that missionaries have proven disturbers. This is punishment without trial. United States Minister Terrell denounces the charges as calumny."

The Rev. Judson Smith, secretary of the American board here states that the Barnum referred to is the Rev. H. S. Barnum of Constantinople, and that the charge is absolutely without foundation, as all the missionaries have kept themselves free from all political complications in Turkey.

### MACEO SPREADING RUIN.

Spaniards Trying to Prevent a Junction Between Him and Gomez.

HAVANA, Jan. 28.—Communication with Pinar del Rio is still very much interrupted, but reports received by courier show that the insurgents there under Antonio Maceo are displaying great activity, and are doing much damage despite the reports disseminated here that he was being closely pressed by the Spanish troops and was anxious to escape into Havana as best he could. It is admitted that some 2,000 residents of Pinar del Rio province have joined the forces of the insurgents.

Maceo and his men are in the extreme western portion of Pinar del Rio, according to the latest accounts. The volunteer troops at Paso Real and Guanes report that large numbers of insurgents have been passing those points in the direction of the city of Pinar del Rio and that they have formed a junction with Maceo, whose following was about 4,000. At Mantua the insurgents learned from confidential sources of the whereabouts of large stores of ammunition, which were all captured.

Maceo has now scoured the province of Pinar del Rio as far west as the sea-coast, and it remains to be seen whether the claim of the authorities can be made good that he will not be allowed to return to the eastward or to rejoin his forces with those of Gomez.

## FOUR OHIO DELEGATES

To St. Louis Chosen by Politicians at Cleveland.

### MCKINLEY AND FORAKER AGREE.

The Senator-Elect, Gov. Bushnell, Hanna and Hoyt Selected as Delegates at Large—No Doubt That Ohio Will Be United For McKinley.

CLEVELAND, Jan. 28.—There has been a mysterious gathering of politicians here. First Charles L. Kurtz, chairman of the Republican state committee, dropped into town and registered at the Weddell House. He was soon followed by Colonel A. L. Conger of Akron. Both are well known friends of Senator-elect Foraker and it was at once supposed that they were here for a purpose. Kurtz flitted about being leading Republicans. He spent some time in the office of M. A. Hanna, who is recognized as the closest friend of McKinley. The conference lasted for more than an hour. Later Mr. Kurtz was in conference with Colonel Myron T. Herrick, also one of McKinley's supporters. When asked the purpose of his visit to Cleveland, Mr. Kurtz declined to go into details. He said that he had been attending to some business matters.

It was learned from another source that his talk with Mr. Hanna was of a political nature; that, in fact, the make-up of the delegation at-large from Ohio to the St. Louis convention was considered. The choice of delegates in various districts was also discussed. "It was proposed," said this gentleman, "and practically settled, so far as this preliminary conference can settle it, that M. A. Hanna and James H. Hoyt of this city and Senator-elect Foraker and General Bushnell will be the delegates-at-large. There is no doubt that Ohio will be united for McKinley, and the purpose now is to provide against future friction and conflicts between the two elements of the Republican party in the state."

There seems to be no doubt that the conference here was held with the full knowledge of both McKinley and Foraker, and that the meetings were arranged with their full consent. If the delegates-at-large are agreed upon as suggested, both McKinley and Foraker will have an equal representation, and the matter being settled in advance, there can be no contest at the state convention.

Mr. Hanna said that he had received a call from Mr. Kurtz this afternoon, and that they had discussed various matters connected with the candidacy of Governor McKinley. He declared that there was a perfect agreement between them. "I want to say," said he, "that the stories about divisions in the ranks of the Ohio Republicans are the rankest nonsense. The party is united today as it was never united before, and McKinley is stronger in the state than he has ever been. The people who are trying to create dissensions are simply making themselves ridiculous."

It was stated that General Grosvenor of Akron was likely to be selected as one of the delegates-at-large, with Governor Bushnell, Senator-elect Foraker and Mr. Hanna. It is probable that the state convention will be held late in March or the first week in April. The exact time has not yet been agreed upon, although all the Republican leaders are said to favor an early convention.

### SPEAR TO BE INVESTIGATED.

At His Request a Committee Is Appointed—Legislative Proceedings.

COLUMBUS, Jan. 28.—Mr. Spear, of Clinton county, who is accused of demanding \$350 from Mr. Barrett as the price of an appointment to guardship at the penitentiary, has arisen to a question of privilege in the house, denied the charge and requested an investigation, whereupon Mr. Bosler introduced a resolution providing that the speaker appoint a committee of five to investigate.

Mr. Davis introduced a resolution providing for a joint committee of house and senate to investigate the lease of Eggleston avenue at Cincinnati to the Pennsylvania railroad for much less than the value originally agreed upon.

Bills introduced were: Mr. Brorion, that all rentals, etc., from canal property go into the general instead of the canal fund, as recommended in Governor Bushnell's message.

Mr. Clark, that justices of the peace must sign all writs in their own township and own office, and no justice shall appoint a special constable who is not a voter of the township.

Authorities on the Outlook For a Big Expedition.

WASHINGTON, Jan. 28.—The Spanish minister has informed the state department that last Friday night the steamer J. W. Hawkins left New York with an expedition of 150 men, arms and ammunition and stores, in command of Calisto Garcia, that she may go south and take more men and arms at Palm Beach, Fla., or elsewhere; that she will pass in the United States waters near Key West; that the arms and ammunition confiscated at Cedar Keys, Fla., are ready to be embarked on a schooner to join the Garcia expedition at sea, and that the steamer Commodore at Wilmington, N. C., still in port, is in "The conspiracy."

The secretary of the treasury has telegraphed this statement to all collectors of customs along the South Atlantic coast, with instructions to consult United States attorneys and take whatever action may be found necessary to prevent any violation of international law. Captain Shoemaker of the revenue cutter service, has also given the necessary instructions to commanders of revenue cutters, and every precaution will be taken to intercept the Hawkins.

The cruisers Montgomery and Raleigh are believed to be lying in wait off the Virginia capes to pick up the Hawkins with the party of alleged filibusters under Garcia aboard and place the ship under detention and the party under arrest for violation of the neutrality laws.

### PECKHAM'S FIRST OPINION.

Decides the Government Can Condemn Private Property at Gettysburg.

NEW YORK, Jan. 28.—Justice Peckham, the new member of the United States supreme court, has delivered his first opinion in that court. The opinion was in the case involving the right of the government to condemn the real estate of the Gettysburg Electric Railway company as a part of the national park located upon the Gettysburg battlefield. The court below had decided that the act of congress authorizing the establishment of the park, in so far as it applied to the condemnation of private property, was unconstitutional and that there was no right under it to condemn.

Justice Peckham's decision reversed this, deciding the law to be valid and sustaining the condemnation proceedings.

EAST LIVERPOOL, O., TUESDAY, JAN. 28.

For President,  
**WILLIAM MCKINLEY,**  
OF Ohio.

The legislature is making a record  
for doing business, and the good work  
should be urged on.

PERHAPS the best reason for the  
Harrison-Dimmock wedding is that  
son Russell needs some guiding in-  
fluence.

OLD stockings and the bottoms of  
chairs are giving up their gold for  
bonds, and Secretary Carlisle is seen  
to smile again.

THE only weapons used in the  
American-English conflict to date are  
tongues, teeth and pallets of the var-  
ious combatants.

AN exhibit of American crockery in  
New York would be a paying adver-  
tisement. Worse ideas for the ad-  
vancement of our product have fre-  
quently been proposed.

THE Congressional Record is not in-  
teresting reading these days. It is  
about as cheerful as the inside of a  
coffin with the lid screwed down and  
six feet of earth piled on top.

EVERY member of the McKinley  
club and every other man who is so  
fortunate as to be invited should re-  
member that the Lincoln banquet will  
be an event political in this town.

THE next presidential candidate of  
the Democratic party will be as a  
sheep led to the slaughter, and there  
are several million good Americans in  
the vicinity waiting patiently with knives.

SUPPRESS THE TRAMP.  
Next to miserable roads, the crown-  
ing nuisance of Ohio, stands the  
tramp. He is a selfish, indolent fel-  
low, often vicious and given to crime.  
He is lazy and dirty, wicked and de-  
praved. Wandering from place to  
place, the model for vagabonds of  
every nation, he is of no more service  
to the state than he is to himself.  
His wants are few, but he compels  
other people to provide for them, and  
there is no excuse whatever for his  
existence. Sleeping where he can  
find shelter and eating of food, oft-  
times unwholesome, he is a mark for  
contagion, and the manner in which  
he wanders through the state admits  
of disease being carried from place to  
place. Work to him is an abomina-  
tion, and when it is possible to avoid  
labor he is found in the role of the  
idler. For years he has been a nu-  
isance. While other matters far less  
important have been touched upon by  
the legislature, the tramp has been al-  
lowed to wander at will, amazing the  
public and maintaining himself as an  
institution decidedly dangerous. If  
the law compelled him to work he  
would soon cease to exist. Hundreds  
of him would wander to other states  
where no such hardship is encoun-  
tered. He would vanish from Ohio,  
and the state would know him no  
more. Pass a tramp law.

There is good reason for the popu-  
larity of Chamberlain's Cough remedy.  
Davis & Buzard, of West Monterey,  
Clarion company, Pa., says: "It has  
cured people that our physicians could  
do nothing for. We persuaded them to  
try a bottle of Chamberlain's  
Cough remedy and they now recom-  
mend it with the rest of us." Twenty-  
five and 50 cent bottles for sale by A.  
H. Bulger, druggist.

## OUR SHIPS TO MENANCE

Turkey Would Be Pleasing to  
the British.

WOULD BRING SULTAN TO TIME.

The London Chronicle Suggests That the  
European Powers Invite the United  
States to Make a Naval Demonstration.  
Turkey May Be Divided Up.

LONDON, Jan. 28.—The Chronicle this  
morning has an editorial recalling the  
success which attended President Jeff-  
erson's sending a fleet to Algiers and  
advocates the great powers formally in-  
viting the United States to send a fleet  
to Turkey.

"The mere sight of such a formidable  
display," says The Chronicle, "would  
suffice to bring the Sultan to his senses."  
If, however, action were needed, The  
Chronicle urges that the British fleet  
should co-operate.

The Daily News prints a dispatch  
from Vienna which asserts that news  
has been received there from Constanti-  
nople and Sebastopol which agrees that  
Russia has a fleet lying at Sebastopol  
and at Odessa, and that the Caucasian  
armies of Russia are being concentrated  
upon the Armenian frontiers in readi-  
ness to move next spring to realize the  
plans of Peter the Great for the parti-  
tion of Turkey between the powers.

Russia taking Armenia and Constanti-  
nople, France taking Syria and Pales-  
tine, and England taking Egypt and the  
eastern shores of the Persian gulf, the  
remainder of the Turkish empire to be  
divided among the other powers.

The Daily News also has a dispatch  
from Sebastopol, which records the se-  
cret preparations are going forward  
there of shipping and of armaments for  
a volunteer fleet. It is the general  
belief there, this dispatch affirms, that  
these preparations foreshadow some  
action in spring.

A Berlin special says the Berliner  
Tagblatt declares: "It will be the duty  
of continental diplomacy to convince  
America that England's motives in the  
Armenian question are political and not  
human, and thus dissuade the United  
States from co-operating with England."

MAJESTY SPREADING RUIN.

Spaniards Trying to Prevent a Jun-  
ction Between Him and Gomez.

HAVANA, Jan. 28.—Communication  
with Pinar del Rio is still very much in-  
terrupted, but reports received by  
courier show that the insurgents there  
under Antonio Maceo are displaying  
great activity, and are doing much  
damage despite the reports disseminat-  
ed here that he was being closely  
pressed by the Spanish troops and was  
anxious to escape into Havana as best  
he could. It is admitted that some 2,000  
residents of Pinar del Rio province have  
joined the forces of the insurgents.

Maceo and his men are in the extreme  
western portion of Pinar del Rio, ac-  
cording to the latest accounts. The  
volunteer troops at Paso Real and  
Guantanamo report that large numbers of in-  
surgents have been passing those points  
in the direction of the city of Pinar del  
Rio and that they have formed a jun-  
ction with Maceo, whose following was  
about 4,000. At Mantua the insurgents  
learned from confidential sources of the  
whereabouts of large stores of ammu-  
nition, which were all captured.

Maceo has now scoured the province  
of Pinar del Rio as far west as the sea-  
coast, and it remains to be seen whether  
the claim of the authorities can be made  
good that he will not be allowed to re-  
turn to the eastward or to rejoin his  
forces with those of Gomez.

65, has been shot and probably fatally  
injured by his wife, aged 26, while try-  
ing to kidnap their child. The couple  
had been separated.

Floods in California.

SAN FRANCISCO, Jan. 28.—The storm

Englishmen Well Treated.

LONDON, Jan. 28.—A letter from Ca-  
racas in The Times testifies to the mod-  
eration there during the excitement of  
President Cleveland's message, there be-  
ing not a single act of violence toward  
British property or British subjects.

Japan Will Control Korea.

anese government wishes to assert its

cided to retain Korea within the  
sphere of its influence.

late Lord Leighton, president of the  
Royal Academy, is announced, will

Instructed For McKinley.

OLNEY, Ills., Jan. 28.—The Republi-  
can county convention has instructed  
for McKinley.

## FOUR OHIO DELEGATES

To St. Louis Chosen by Poli-  
ticians at Cleveland.

MCKINLEY AND FORAKER AGREE.

The Senator-Elect, Gov. Bushnell, Hanna  
and Hoyt Selected as Delegates at  
Large—No Doubt That Ohio Will Be  
United For McKinley.

CLEVELAND, Jan. 28.—There has been  
a mysterious gathering of politicians  
here. First Charles L. Kurtz, chairman  
of the Republican state committee,  
dropped into town and registered at the  
Weddell House. He was soon followed  
by Colonel A. L. Conger of Akron.  
Both are well known friends of Senator-  
elect Foraker and it was at once sup-  
posed that they were here for a purpose.  
Kurtz flitted about seeing leading Rep-  
ublicans. He spent some time in the  
office of M. A. Hanna, who is recognized  
as the closest friend of McKinley. The  
conference lasted for more than an hour.  
Later Mr. Kurtz was in conference  
with Colonel Myron T. Herrick, also  
one of McKinley's supporters. When  
asked the purpose of his visit to Cleve-  
land, Mr. Kurtz declined to go into de-  
tails. He said that he had been attend-  
ing to some business matters.

It was learned from another source  
that his talk with Mr. Hanna was of a  
political nature, that, in fact, the mak-  
ing up of the delegation-at-large from Ohio  
to the St. Louis convention was consid-  
ered. The choice of delegates in vari-  
ous districts was also discussed. "It  
was proposed," said this gentleman,  
"and practically settled, so far as this  
preliminary conference can settle it,  
that M. A. Hanna and James H. Hoyt  
of this city and Senator-elect Foraker  
and General Bushnell will be the dele-  
gates-at-large. There is no doubt that  
Ohio will be united for McKinley, and  
the purpose now is to provide against  
future friction and conflicts between the  
two elements of the Republican party in  
the state."

There seems to be no doubt that the  
conferences here were held with the full  
knowledge of both McKinley and For-  
aker, and that the meetings were ar-  
ranged with their full consent. If the  
delegates-at-large are agreed upon as  
suggested, both McKinley and Foraker  
will have an equal representation, and  
the matter being settled in advance,  
there can be no contest at the state con-  
vention.

Mr. Hanna said that he had received  
a call from Mr. Kurtz this afternoon,  
and that they had discussed various  
matters connected with the candidacy  
of Governor McKinley. He declared  
that there was a perfect agreement  
between them. "I want to say," said  
he, "that the stories about divisions in  
the ranks of the Ohio Republicans are  
the rankest nonsense. The party is  
united today as it was never united be-  
fore, and McKinley is stronger in the  
state than he has ever been. The peo-  
ple who are trying to create dissensions  
are simply making themselves ridicu-  
lous."

It was stated that General Grosvenor  
of Athens was likely to be selected as  
one of the delegates-at-large, with Gov-  
ernor Bushnell, Senator-elect Foraker  
and Mr. Hanna. It is probable that the  
state convention will be held late in  
March or the first week in April. The  
exact time has not yet been agreed upon,  
although all the Republican leaders are  
said to favor an early convention.

SPEAR TO BE INVESTIGATED.

At His Request a Committee Is Ap-  
pointed—Legislative Proceedings.

COLUMBUS, Jan. 28.—Mr. Spear, of  
Clinton county, who is accused of de-  
manding \$350 from Mr. Barrett as the  
price of an appointment to guardship at  
the penitentiary, has arisen to a ques-  
tion of privilege in the house, denied  
the charge and requested an investi-  
gation, whereupon Mr. Bosler intro-  
duced a resolution providing that the  
speaker appoint a committee of five to  
investigate.

Mr. Davis introduced a resolution pro-  
viding for a joint committee of house  
and senate to investigate the lease of  
Eggleston avenue at Cincinnati to the  
Pennsylvania railroad for much less the  
value originally agreed upon.

Bills introduced were: Mr. Brorion,

erty go into the general instead of the

Bushnell's message.

gages on the mortgage on file and ex-  
tending time of refilling from one to  
three years.

Mr. Gayman, amending Boxwell law  
so that pupils may attend nearest High  
school even in another county.

Mr. Wylie, to tax iron ore on docks at  
harbors.

Mr. Clark, that judgments on cognovit  
notes must be confessed in county where  
defendant resides.

Mr. Clark, that justices of the peace  
must sign all writs in their own town-  
ship and own office, and no justice shall  
appoint a special constable who is not a  
voter of the township.

Mr. Whittlesey, that all rolling stock  
of railroad companies must be listed for  
taxation.

Mr. Morgan, making it a misde-  
meanor for any person to walk on or  
stand within five feet of any steam or  
street railroad track, except at public  
crossings.

Mr. Sullivan, authorizing the gov-  
ernor to appoint a committee of seven  
to arrange for celebrating the centennial  
of Ohio in 1903.

the shoemakers for an advance from 7 1/2

toothpick shoe has resulted in 40 men  
leaving the Kennard factory and 50 the  
Jacobs factory.

Campbell of Chicago, dialect poet and

## WATCHING FOR FILIBUSTERS.

Authorities on the Outlook For a Big  
Expedition.

WASHINGTON, Jan. 28.—The Spanish  
minister has informed the state depart-  
ment that last Friday night the steamer  
J. W. Hawkins left New York with an  
expedition of 150 men, arms and ammu-  
nition and stores, in command of Calisto  
Garcia, that she may go south and take  
more men and arms at Palm Beach,  
Fla., or elsewhere; that she will pass in  
the United States waters near Key  
West; that the arms and ammunition  
confiscated at Cedar Keys, Fla., are  
ready to be embarked on a schooner to  
join the Garcia expedition at sea, and  
that the steamer Commodore at Wil-  
mington, N. C., still in port, is in "the  
conspiracy."

The secretary of the treasury has tele-  
graphed this statement to all collectors  
of customs along the South Atlantic  
coast, with instructions to consult  
United States attorneys and take what-  
ever action may be found necessary to  
prevent any violation of international  
law. Captain Shoemaker of the revenue  
cutter service, has also given the nec-  
essary instructions to commanders of  
revenue cutters, and every precaution  
will be taken to intercept the Hawkins.

The cruisers Montgomery and Raleigh  
are believed to be lying in wait off the  
Virginia capes to pick up the Hawkins  
with the party of alleged filibusters  
under Garcia aboard and place the ship  
under detention and the party under  
arrest for violation of the neutrality  
laws.

PECKHAM'S FIRST OPINION.

Decides the Government Can Condemn  
Private Property at Gettysburg.

NEW YORK, Jan. 28.—Justice Peck-  
ham, the new member of the United  
States supreme court, has delivered his  
first opinion in that court. The opinion  
was in the case involving the right of  
the government to condemn the real  
estate of the Gettysburg Electric Rail-  
way company as a part of the national  
park located upon the Gettysburg bat-  
tle-ground. The court below had de-  
cided that the act of congress authoriz-  
ing the establishment of the park, in so  
far as it applied to the condemnation of  
private property, was unconstitutional  
and that there was no right under it to  
condemn.

Justice Peckham's decision reversed  
this, deciding the law to be valid and  
sustaining the condemnation proceed-  
ings.

AWFUL MINE EXPLOSION.

Many Lives Lost From a Disaster Near  
Cardiff, Wales.

CARDIFF, Wales, Jan. 28.—A terrific  
explosion of fire damp has taken place  
in a colliery at Tylerstown, near this  
place. The shaft buildings were shat-  
tered and the whole town was shaken by  
the tremendous concussion, causing a  
scene of wild excitement. Fifty-four  
miners were below the surface when the  
explosion took place.

Fifteen bodies have been recovered  
and 43 miners are now said to be miss-  
ing.

The German Emperor's Birthday.

the troops. His majesty has conferred  
several honorary titles. There was a  
family dinner at the palace.

The St. Paul Still Aground.

LONG BRANCH, N. J., Jan. 28.—The  
International Navigation company's  
steamer St. Paul, which ran aground  
off Long Branch early Saturday morn-

are working night and day to get her  
away from the Jersey coast. The  
steamer is in no immediate danger.

Destitution in Newfoundland.

ST. JOHN'S, N. F., Jan. 28.—The des-

vehement. The streets are impassable  
from the recent snow storms, thus af-  
fecting work for 100 men, yet no steps  
have been taken to clear them.

A Gain in the Gold Reserve.

WASHINGTON, Jan. 28.—The sub-treas-  
ury at New York has received a deposit  
of \$1,000,000 in exchange for currency  
and lost \$151,400 by withdrawals, which  
leaves the true amount of the gold re-  
serve \$50,533,513.

Kempster, who was deposed from the

Decides the Government Can Condemn  
Private Property at Gettysburg.

NEW YORK, Jan. 28.—Justice Peck-  
ham, the new member of the United  
States supreme court, has delivered his  
first opinion in that court. The opinion  
was in the case involving the right of  
the government to condemn the real  
estate of the Gettysburg Electric Rail-  
way company as a part of the national  
park located upon the Gettysburg bat-  
tle-ground. The court below had de-  
cided that the act of congress authoriz-  
ing the establishment of the park, in so  
far as it applied to the condemnation of  
private property, was unconstitutional  
and that there was no right under it to  
condemn.

Justice Peckham's decision reversed  
this, deciding the law to be valid and  
sustaining the condemnation proceed-  
ings.

EUROPE URGED TO ACT. The House Passes the Senate Armenian Resolutions. NEARLY CUT LOOSE FROM TURKEY In an Amendment Offered by Mr. Hepburn and Which Almost Passed—He Wanted the Turkish Minister Given His Passports—Sensational Scene. WASHINGTON, Jan. 28.—The house after an interesting four-hour debate, has adopted the resolutions passed by the senate last week, calling on the powers, signatory to the treaty of Berlin, to enforce the reform in Turkey guaranteed to the Christian Armenians and pledging the support of congress to the president in the most vigorous action he might take for the protection and security of American citizens in Turkey. The house committee had prepared some resolutions on the same subject, but it was deemed advisable, after the senate resolutions reached the house, to substitute them for those prepared by the committee. Mr. Quigg of New York, who had charge of the bill, made an able presentation of the case, but there was a disposition on the part of some of the members to go further than the resolution did, and Mr. Hepburn of Iowa proposed to give the Turkish minister his passports and sever all diplomatic relations with Turkey. His remarks denouncing the Turkish outrages and charging that the powers signatory to the treaty of Berlin were actuated from political and other considerations in maintaining the "balance of power" in Eastern Europe were received with great enthusiasm, and at one time it looked as if the house might be carried to his way of thinking. But the counsel of Mr. Hitt not to take rash action, in the course of which he pointed out the dire consequences that might result from a severance of diplomatic relations with a friendly power that had fulfilled her treaty obligations to us, prevailed, and the Hepburn proposition was overwhelmingly defeated. Mr. Bailey opposed this resolution on the ground that it would be improper for us to "insult" the parties to the treaty of Berlin by intimating that they had not carried out their obligations. Mr. Turner of Georgia took a similar view, and Mr. Grosvenor of Ohio characterized the resolutions as "incomplete, inefficient and unworthy" and requested the committee to withdraw them. They were finally passed, however, by a vote of 143 to 36, after a motion of Mr. Bailey to send them to the committee had been defeated, 50 to 103. Advocated the International Bank. WASHINGTON, Jan. 28.—The house committee on banking and currency listened at its meeting to Comptroller Eckles' view on the international bank plan to organize a bank for dealings with South and Central America. He criticized the details of the measure. Chairman Walker appointed a subcommittee to confer with the comptroller and the attorney general and perfect the bill. Cleveland Asks Aid For Negroes. WASHINGTON, Jan. 28.—President Cleveland has sent to the house all the correspondence in possession of the state department regarding Alabama negroes who were colonized in Coahuila, Mexico, and repeated his former recommendation that an appropriation be made for their return to the United States. CONDOLE WITH MRS. RUNYON. The Emperor and His Mother Send Messages—The Funeral Today. BERLIN, Jan. 28.—Mrs. Runyon is prostrated with grief, and as she would be unable to bear the strain of the elaborate funeral ceremony for which arrangements were being made, the programme has been changed and the funeral service over the late remains of the United States ambassador will take place at the house at 3 o'clock this afternoon. Only the family and the staff of the United States embassy will be present. On Thursday, at noon, there will be memorial services in St. George's chapel, upon which occasion Emperor William will be present. Mrs. Runyon has received a dispatch from the empress of Germany saying that her majesty was "deeply moved and shocked at hearing of your sudden loss." The dispatch added: "The emperor unites with me in expressing the warmest sympathy for you and your family and our own sincere regrets." The newspapers pay tribute to the worth and ability of the late ambassador, and the whole diplomatic corps, hundreds of public officials and, practically, all the members of the American colony called at the embassy to express their sympathy. # EUROPE URGED TO ACT.

## The House Passes the Senate Armenian Resolutions.

### NEARLY CUT LOOSE FROM TURKEY

In an Amendment Offered by Mr. Hepburn and Which Almost Passed—He Wanted the Turkish Minister Given His Passports—Sensational Scene.

WASHINGTON, Jan. 28.—The house after an interesting four-hour debate, has adopted the resolutions passed by the senate last week, calling on the powers, signatory to the treaty of Berlin, to enforce the reform in Turkey guaranteed to the Christian Armenians and pledging the support of congress to the president in the most vigorous action he might take for the protection and security of American citizens in Turkey. The house committee had prepared some resolutions on the same subject, but it was deemed advisable, after the senate resolutions reached the house, to substitute them for those prepared by the committee.

Mr. Quigg of New York, who had charge of the bill, made an able presentation of the case, but there was a disposition on the part of some of the members to go further than the resolution did, and Mr. Hepburn of Iowa proposed to give the Turkish minister his passports and sever all diplomatic relations with Turkey. His remarks denouncing the Turkish outrages and charging that the powers signatory to the treaty of Berlin were actuated from political and other considerations in maintaining the "balance of power" in Eastern Europe were received with great enthusiasm, and at one time it looked as if the house might be carried to his way of thinking.

But the counsel of Mr. Hitt not to take rash action, in the course of which he pointed out the dire consequences that might result from a severance of diplomatic relations with a friendly power that had fulfilled her treaty obligations to us, prevailed, and the Hepburn proposition was overwhelmingly defeated. Mr. Bailey opposed this resolution on the ground that it would be improper for us to "insult" the parties to the treaty of Berlin by intimating that they had not carried out their obligations. Mr. Turner of Georgia took a similar view, and Mr. Grosvenor of Ohio characterized the resolutions as "incomplete, inefficient and unworthy" and requested the committee to withdraw them. They were finally passed, however, by a vote of 143 to 36, after a motion of Mr. Bailey to send them to the committee had been defeated, 50 to 103.

Advocate the International Bank.  
WASHINGTON, Jan. 28.—The house committee on banking and currency listened at its meeting to Comptroller Eckles' view on the international bank plan to organize a bank for dealings with South and Central America. He criticized the details of the measure. Chairman Walker appointed a subcommittee to confer with the comptroller and the attorney general and perfect the bill.

Cleveland Asks Aid For Negroes.  
WASHINGTON, Jan. 28.—President Cleveland has sent to the house all the correspondence in possession of the state department regarding Alabama negroes who were colonized in Coahuila, Mexico, and repeated his former recommendation that an appropriation be made for their return to the United States.

# CONDOLE WITH MRS. RUNYON.

The Emperor and His Mother Send Messages—The Funeral Today.

BERLIN, Jan. 28.—Mrs. Runyon is prostrated with grief, and as she would be unable to bear the strain of the elaborate funeral ceremony for which arrangements have been made, the programme has been changed and the funeral service over the late remains of the United States ambassador will take place at the house at 3 o'clock this afternoon. Only the family and the staff of the United States embassy will be present. On Thursday, at noon, there will be memorial services in St. George's chapel, upon which occasion Emperor William will be present.

Mrs. Runyon has received a dispatch from the emperor of Germany saying that her majesty was "Deeply moved and shocked at hearing of your sudden loss."

The dispatch added: "The emperor unites with me in expressing the warmest sympathy for you and your family and our own sincere regrets."

The newspapers pay tribute to the worth and ability of the late ambassador, and the whole diplomatic corps, hundreds of public officials and, practically, all the members of the American colony called at the embassy to express their sympathy.

The body will be embalmed and taken to his home at Newark, N. J.

# FEARFUL FAMILY TRAGEDY.

A Man Murders His Stepmother and

Suicides—His Wife Poisons Herself.

BLUEFIELDS, W. Va., Jan. 28.—In a family quarrel at Kyle Mrs. Lizzie Savage has been shot and instantly killed by Thomas Burns, her stepson. After the shooting Burns went to the barn and fired a bullet through his left breast, causing instant death.

As soon as his young wife saw the lifeless body she fainted and after being revived went to the house and took poison. It was with great difficulty that her life was saved. Her mind is thought to have been deranged.

# Amish Church Members on Trial.

DECATUR, Ind., Jan. 28.—The cases against the Amish church members were begun in the circuit court here. Three cases have been tried, two against Jacob Swartz for solemnizing the marriages of first cousins and marrying without license, and the third against David Swartz for unlawfully solemnizing marriages. They were tried before Judge Heller, who will not render a verdict for several days.

# LOCAL BRUITIES.

Another car has arrived for the street railway. It is needed.

H. H. L. Carroll has moved his household effects from Hammondsville to this city.

Officer Whan received a dog this morning from a friend in Beaver Falls, who has been taking care of the canine for him.

The horse which a local paper shot last night, is, according to Doctor Wanmaker, getting along nicely and will recover.

A water pipe burst in the Ikirt building last evening, and caused some slight damage before the water could be shut off.

The Daughters of Rebekah will initiate several candidates tonight, afterward a social will take place in honor of the new members.

George McGinnis, the member of the clerical force at the freight depot who has been west for several weeks, is expected home tomorrow.

A drunken man on Seventh street yesterday afternoon demonstrated to the gazing populace the remarkable feat of taking up the whole street at once.

Deputy Thomas Pickal will install the officers of the Wellsville lodge of Odd Fellows Thursday night. This installation will complete the work in this district.

The river began to fall last evening, and has been steadily going down. The Hudson will be up from Cincinnati this evening and the other packets will run regularly.

The Leiderkranz singing society entertained friends at Red Men's hall last night. Vocal and instrumental music was well rendered and the evening's festivities ended in dancing.

G. W. Bursen, the Irondale druggist who cannot remain long at peace with the authorities of that place, was before the mayor again today. Attorney J. H. Brooks went out to look after his case.

A lad not more than a dozen years of age attempted to alight from a moving freight train near the end of Second street last night and had a hard fall. His face was skinned, and as he limped away it seemed as though his leg was hurt.

Winnie Mercer, referring to a statement that appeared in the Pittsburgh Dispatch of last Sunday, denies that there is any existing obligation between him and a club near Boston. He says that the matter was adjusted over a year ago, and that the statement in the Dispatch is without truth.

A local paper blundered in the announcement last evening that Professor Wolf would give a reception at Brunt's on Thursday evening. The professor will be present, of course, with his orchestra, but the party will be given by the management of the opera house.

A new nuisance has developed at some of the potteries. Those that are provided with electric light find that mischievous boys have great delight in stealing the bulbs, secreting them until work is ended, and then enjoying a bombardment by exploding them on the street.

Martin Leatherow, who fell off the East End culvert and broke his arm a few months since, has almost recovered from his injuries. To gain a livelihood he is engaged in peddling ware around the country, and expresses a desire that the city hurry up and reimburse him for the pain he has suffered.

William Davidson, of Second street, will appear at council tonight and ask that the Ainsley building, adjoining his home, be razed to the ground. The building is in a very dilapidated condition and should be torn down, as it may, without a moment's warning, collapse, and possibly do damage to life and property.

M. A. Foran, the eloquent Cleveland lawyer who delivered the address when the Elks held their lodge of sorrow in the Grand last fall, is a Catholic who does not believe the late edict against members of his church and secret societies will amount to much. Mr. Foran is an enthusiastic Elk, and has no desire to withdraw.

Two men were seen to row out in the river yesterday evening just as a tow came down and persons who saw the occurrence say they were run down. At least they disappeared, and were seen no more. Several persons on the river front noticed the occurrence, but could not account for the disappearance of the men other than that they had been run down and drowned. It is not known who they were.

Agent Adam Hill in speaking of the assertion of a local paper last night that the engineer of the freight train did wrong in not stopping to let the fire company cross the track on Sunday morning said: "It would have required four engines to stop that train on a grade. The weight of the heavy freight cars would have pushed it forward in spite of the force he controlled. The engineer did his duty in pulling out as fast as possible." Mr. Hill is right, and members of the fire company support him in his opinion,

## Save You Money.

We feel kind of lonesome since Christmas. We had gotten used to the scramble and hustle of the holiday times, and the after-quiet makes us feel as if we had been dumped in the middle of a prairie. Rent and a hundred other expenses go on just as before, and as we can't make money anyway, we might as well lose it with a crowd as in solitude. So here goes prices to make things hum at our store in the Diamond. Come in and look through our superb stock of Overcoats, pick out one to suit you, and deduct one-fourth off the price. For example, if a coat is marked \$16 take it along at \$12; or if marked at \$8 take it along at \$6. In our suit and pants department we will make you reductions that will open your eyes. Come at once as our stock must be reduced.

## ENGINEER LAUB HERE

Work on the Bridge Will Now  
Begin.

DOING A LITTLE SURVEYING

The Engineer Has Some Locating to do, and Will Remain Here for a Time—The Actual Work Will be Commenced Late Next Month.

The real work of building the bridge will begin the last of next month if the groundhog does not see his shadow next Sunday.

That is what W. H. Shrader, the contractor, told a reporter this morning, and he was talking with all earnestness. He said that weather was all he needed now, and if winter shows any disposition to move out he can have all his forces ready for work before the end of next month. Matters in connection with the bridge, said Mr. Shrader, were in the best possible condition, and it was only a question of a few weeks until the men would be heard at work. With him was Engineer Laub, who has charge of the construction. Mr. Laub will have some work to do here at once, and, with his force, went over the river this afternoon. He will be aided by Engineer George for the present, and will remain in the city while the construction is in progress. There is some work yet to be done before the contractor can begin, and that is being rushed through, so there will be no delay when the weather is better.

**Cleaning the Diamond.**  
The street sweeper was out this afternoon, and did some effective work. During the dark and rainy weather of the past few weeks the sweeper has been housed, and the paved streets in the business section have been very dirty. The appearance of the sweeper in the Diamond this afternoon was hailed with delight by the business men who have observed the miserable condition of the place.

Mr. Thomas Eggers, 139 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at the W. & W. pharmacy. ### AN INDIAN PRINCESS.

Daughter of the Chief of the Six Upper Canadian Nations in Buffalo.

An audience of about 900 assembled last night in the lecture hall of the German Young Men's Christian association to listen to a rare treat in the form of a recital of original composition given by Miss Pauline Johnson, of the Iroquois reserve, Ontario, and Mr. Owen A. Smily, of London, Eng. Miss Johnson is the only living Indian princess who writes and recites her own poetry. Her Iroquois name is Tekahionwake and she is a daughter of Awashton, the last chief of the six upper Canadian nations. Her recitations in Indian costume were received, with great applause, especially in those numbers in which she espoused the cause of the dying race to which she so proudly belongs. There was no doubt as to her nationality when she gave "The Cattle Thief" and "Ojibdo." Mr. Smily, the humorous end of the combination, kept the audience in an uproar of mirth from the moment he came on until his exit. He is an artist of the Cornet Grain variety, only perhaps a little more varied, as he plays the piano, sings, recites, and introduces cleverly into his selections some very good ventriloquism. His numbers, like Miss Johnson's, were all original. From Buffalo, New York, Times. At the Grand, East Liverpool Feb. 1 '96.

### LIKES THE PLAY.

Niobe is Admired Over in New York State.

The following from the manager of the Grand theater at Freedonia, N. Y., is a testimonial of which Mr. Norcross is proud:

"FRIEND NORCROSS—'Niobe' made an immense hit here. All the papers pronounced it the best we ever had. All those who didn't attend have been regretting it ever since. 'Faust' had a \$405.50 house, and those who attended both pronounce 'Niobe' the best. Give my respects to Mrs. N. and all the rest of the company, including the cats. Yours truly, 'A. H. HILTON.'"

### The Odd Fellows to Dance.

### Shooting For Fun.

The shoot is in progress over the river today, and the sportsmen are having great fun. There is a goodly attendance of sight seers, and the crowd is enjoying the sport. No remarkable scores were made before noon.

### THE STUDY

—of the action of medicines, or vegetable compounds, upon the stomach, and tests in many hundreds of cases, long ago convinced Doctor R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., that all cases of Indigestion, Dyspepsia and Liver Complaint could be cured permanently if the right treatment were given. In support of his belief that he had discovered an alternative extract which he called "Golden Medical Discovery," that would cure these diseases, he collected from all parts of the country the evidence of those who had used his medicine, and he has asked the public to investigate for themselves, as he would be glad to furnish the names and addresses of thousands of people who have used Dr. Pierce's Golden Medical Discovery. All interested should send for a little medical treatise on Dyspepsia, Chronic Diarrhea, "Liver Complaint," Biliousness, Constipation and Piles, published by the World's Dispensary Medical Association, Buffalo, N. Y., and mailed on receipt of six cents in one-cent stamps. This book also contains the photographs and testimony of many persons who have suffered from diseases of the digestive organs.

### INDIGESTION; SEVERE PAIN IN STOMACH.

THOMAS FLETCHER, of Clifton Station, Fairfax Co., Va., writes:

"I suffered for ten years with what your Dr. Pierce's Common Sense Medical Adviser describes as 'Gastralgia' (pain in stomach). I employed our home-doctor—took 1/2 dozen bottles of sarsaparilla with no benefit. Then I took one-half dozen bottles of a celery compound without any benefit; then eight bottles of iron tonic, yet I was no better; this was in 1885. I then took six bottles of Dr. Pierce's Golden Medical Discovery, which made a new man of me. I am now fifty-two years old, and for the past five years I have worked very hard on my farm. It is impossible for me to say too much for the 'Golden Medical Discovery.'"

## Save You Money.

We feel kind of lonesome since Christmas. We had gotten used to the scramble and hustle of the holiday times, and the after-quiet makes us feel as if we had been dumped in the middle of a prairie. Rent and a hundred other expenses go on just as before, and as we can't make money anyway, we might as well lose it with a crowd as in solitude. So here goes prices to make things hum at our store in the Diamond. Come in and look through our superb stock of Overcoats, pick out one to suit you, and deduct one-fourth off the price. For example, if a coat is marked \$16 take it along at \$12; or if marked at \$8 take it along at \$6. In our suit and pants department we will make you reductions that will open your eyes. Come at once as our stock must be reduced.

## ENGINEER LAUB HERE

Work on the Bridge Will Now  
Begin.

### DOING A LITTLE SURVEYING

The Engineer Has Some Locating to do, and Will Remain Here for a Time—The Actual Work Will be Commenced Late Next Month.

The real work of building the bridge will begin the last of next month if the groundhog does not see his shadow next Sunday.

That is what W. H. Shrader, the contractor, told a reporter this morning, and he was talking with all earnestness. He said that weather was all he needed now, and if winter shows any disposition to move out, he can have all his forces ready for work before the end of next month. Matters in connection with the bridge, said Mr. Shrader, were in the best possible condition, and it was only a question of a few weeks until the men would be heard at work. With him was Engineer Laub, who has charge of the construction. Mr. Laub will have some work to do here at once, and, with his force, went over the river this afternoon. He will be aided by Engineer George for the present, and will remain in the city while the construction is in progress. There is some work yet to be done before the contractor can begin, and that is being rushed through, so there will be no delay when the weather is better.

### Cleaning the Diamond.

The street sweeper was out this afternoon, and did some effective work. During the dark and rainy weather of the past few weeks the sweeper has been housed, and the paved streets in the business section have been very dirty. The appearance of the sweeper in the Diamond this afternoon was hailed with delight by the business men who have observed the miserable condition of the place.

He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at the W. & W. pharmacy. ### AN INDIAN PRINCESS.

Daughter of the Chief of the Six Upper Canadian Nations in Buffalo.

An audience of about 900 assembled last night in the lecture hall of the German Young Men's Christian association to listen to a rare treat in the form of a recital of original composition given by Miss Pauline Johnson, of the Iroquois reserve, Ontario, and Mr. Owen A. Smily, of London, Eng. Miss Johnson is the only living Indian princess who writes and recites her own poetry. Her Iroquois name is Tekahionwake and she is a daughter of Awashon, the last chief of the six upper Canadian nations. Her recitations in Indian costume were received, with great applause, especially in those numbers in which she espoused the cause of the dying race to which she so proudly belongs. There was no doubt as to her nationality when she gave "The Cattle Thief" and "Ojibdo." Mr. Smily, the humorous end of the combination, kept the audience in an uproar of mirth from the moment he came on until his exit. He is an artist of the Corny Grain variety, only perhaps a little more varied, as he plays the piano, sings, recites, and introduces cleverly into his selections some very good ventriloquism. His numbers, like Miss Johnson's, were all original. From Buffalo, New York, Times. At the Grand, East Liverpool Feb. 1 '96.

### LIKES THE PLAY.

Niobe is Admired Over in New York State.

The following from the manager of the Grand theater at Freedom, N. Y., is a testimonial of which Mr. Norcross is proud:

"FRIEND NORCROSS—'Niobe' made an immense hit here. All the papers pronounced it the best we ever had. All those who didn't attend have been regretting it ever since. 'Faust' had a \$405.50 house, and those who attended both pronounce 'Niobe' the best. Give my respects to Mrs. N. and all the rest of the company, including the cats. Yours truly, 'A. H. HILTON.'"

### The Odd Fellows to Dance.

The Odd Fellows are today making the final arrangements for the best entertainment the lodge ever held. A musical and literary program will be followed by a banquet, and the evening will wind up with dancing. The affair will take place on Friday evening, and will be held in the pleasant quarters of the lodge on Fifth street.

### Shooting For Fun.

The shoot is in progress over the river today, and the sportsmen are having great fun. There is a goodly attendance of sight seers, and the crowd is enjoying the sport. No remarkable scores were made before noon.

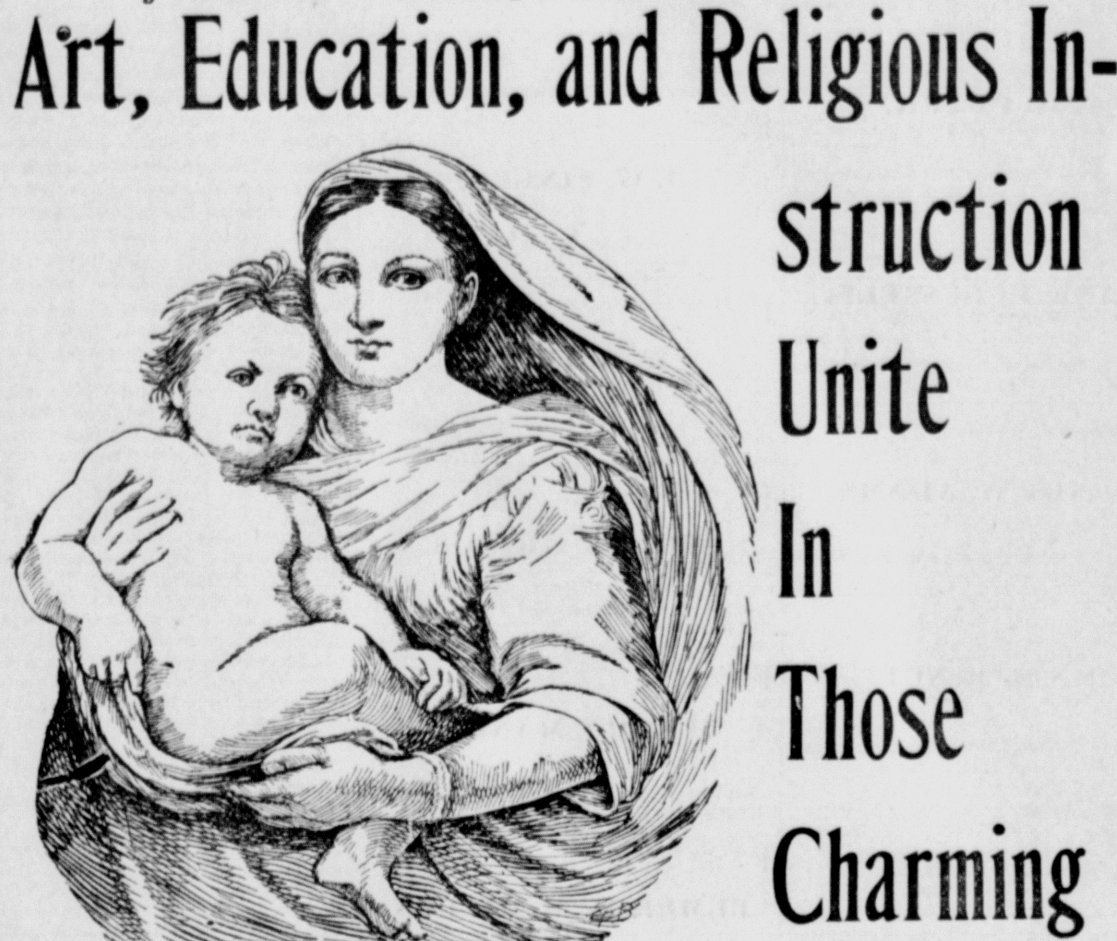

## THE STUDY

of the action of medicines, or vegetable compounds, upon the stomach, and tests in many hundreds of cases, long ago convinced Doctor R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., that all cases of indigestion, Dyspepsia and Liver Complaint could be cured permanently if the right treatment were given. In support of his belief that he had discovered an alternative extract which he called "Golden Medical Discovery," that would cure these diseases, he collected from all parts of the country the evidence of those who had used his medicine, and he has asked the public to investigate for themselves, as he would be glad to furnish the names and addresses of thousands of people who have used Dr. Pierce's Golden Medical Discovery. All interested should send for a little medical treatise on Dyspepsia, Chronic Diarrhea, Liver Complaint, Biliousness, Constipation and Piles, published by the World's Dispensary Medical Association, Buffalo, N. Y., and mailed on receipt of six cents in one-cent stamps. This book also contains the photographs and testimony of many persons who have suffered from diseases of the digestive organs.

INDIGESTION; SEVERE PAIN IN STOMACH. THOMAS FLETCHER, of Clifton Station, Fairfax Co., Va., writes:

"I suffered the terrible tortures for ten years, or more, of indigestion, and I was told by Dr. Pierce's Common Sense Medical Adviser, 'Gastralgia' (pain in stomach). I employed our home-doctor—looked at dozens of bottles of salicylate with no benefit; then I took one-half dozen bottles of Dr. Pierce's Golden Medical Discovery, which made a new man of me. I am now fifty-two years old, and for the past five years I have worked very hard on my farm. It is impossible for me to say too much for the 'Golden Medical Discovery.'"
